## Features

The SmartWitness **CRX** is the world's most advanced 8 channel mobile HD DVR. Connect up to 8 cameras and an optional LCD monitor for full protection inside and out of your vehicle fleet. Built-in GPS and optional WiFi/3G/LTE connectivity enables the CRX to be used for real-time vehicle tracking, live video and image transfer, and drive behavior reporting.

- Real-time images of your vehicle on up to 8 cameras
- Various AHD cameras available for all views: road, driver, side, rear, or cargo view. Connect an LCD display to view in-vehicle
- HD Video sent in real-time via email or to your telematics application
- Up to 1TB SSD storage
- SD card backup storage (up to 128GB)
- Built-in GPS/Glonass , 6-axis G-sensor, 4 audio inputs, LAN, USB and Serial inputs for adding 3G/4G/LTE and Wi-Fi connectivity
- Integrated Power Supply with delay shutdown feature to continue recording for hours after ignition off
- USB/Serial inputs for interfacing with OBDII
- Tamper-resistant locking cover

## Choose your solution

### 1 Video Alerts

**SmartMail** delivers video evidence and drive data within moments of an incident. It may be a road collision, unsafe braking or speeding event, driver-initiated panic button or possibly someone just feels insecure and needs to know you're looking out for them.

### 2 Video Tracking

**SmartView**, is similar to SmartMail but delivers more advanced features such a vehicle location history and drive behavior reports. SmartView is a perfect solution for fleets who require all of the benefits of in-vehicle video and basic GPS tracking.

### 3 Video Telematics

**SmartAPI** enables SmartWitness video and data to be seamlessly integrated with your existing telematics software, combining video with telematics data, such as ELD, HOS, IFTA, dispatching provides a single source for all fleet management needs.
